Fullscope process customers include:

Amalie Motor Oil  
ARCH Aluminum  
Gold Kist  
Heritage Bag  
Huron Valley Steel  
MapleLodge Farms  
PRIDE Enterprises  
Wolverine Brass

# DELIVERING VALUE TO PROCESS MANUFACTURERS

Delivering a high quality customer experience profitably is a challenge shared by all manufacturers. To boost your success, you need visibility to accurate and timely information, such as inventory and order history, at every customer touch point along the supply chain. Such visibility helps strengthen customer relationships and satisfaction levels while providing you with insight to operational and financial performance. Fullscope specializes in helping family-run to publicly-traded companies balance customer service and operational performance objectives. Built specifically to solve the problems faced by process manufacturing companies, Fullscope solutions and services can help you improve operational efficiency by integrating sales, production, inventory, quality control, distribution and customer service; increase speed and flexibility of your manufacturing operations; provide real-time insight into production processes and costs to help manage resources more effectively; stay competitive by implementing industry best practices; and respond quickly to changing market opportunities. Our a-la-carte back office software products provide you with the ability to buy what you need, when you need it. Fullscope products and services include Microsoft Dynamics™ AX enterprise resource planning (ERP); Wise XE, Fullscope's own solution that enables Web-based collaborative commerce between manufacturers, suppliers, partners, and customers; and remote IT services to ensure peace of mind for future smooth sailing.

- Fullscope is an **Authorized Process Industries for Microsoft Dynamics AX Partner**. Microsoft Dynamics AX core functionality includes business analysis, an enterprise portal, supply chain management, customer response management, human resource management and financial management modules. Process Industries for Microsoft Dynamics AX modules, developed by Fullscope and sold and supported by Microsoft, include process manufacturing, process distribution and total quality management.
- **Wise XE** leverages integration and Internet technology, enabling information from one or more ERP systems to be shared via a Web browser and offering a consistent look-and-feel to all users.

## LEVERAGING EXISTING MANUFACTURING TECHNOLOGY

As a process manufacturer, you need software that is robust and specific to meet your industry's needs, yet easy to implement and maintain. Fullscope develops and markets a process-specific version of Microsoft Dynamics AX that is certified, sold and supported by Microsoft. Because Process for Microsoft Dynamics AX builds upon proven Microsoft products and technology, your business can take advantage of existing Microsoft IT investments, including Microsoft Office System applications and the Microsoft Windows Server System™.
